

S3G Environment, Health & Safety Training...

making a difference in the environmental, risk and social arena.

- ✓ *Need to successfully manage internal audits for your company?*
- ✓ *Need a fully integrated management system to cover Environment, Health and Safety?*

Environment, Health & Safety Internal Auditor—EHS02 (On-Site only)

Course Description

This comprehensive 3-day course will provide you with the knowledge to:

- **Understand** standards underpinning an integrated EHS system including ISO 14001, AS4801 and OSHAS 18001.
- **Apply the essential audit tools** and techniques to verify that an EHS system is operating effectively and efficiently
- **Understand** the importance of having a performance-based approach to integrated auditing methods
- **Demonstrate** the personal attributes necessary to conduct effective EHS system audits.

Who Should Attend?

- Environmental Managers
- Risk Assessors
- Health and Safety Inspectors and Managers
- Environmental Officers and Advisors
- Those required to undertake environmental and safety audits within their organisation
- Environmental and health and safety professionals seeking qualifications to undertake audits or inspections
- Those responsible for monitoring performance of environmental, health and safety systems

Special Features of the Course

We've **included a realistic and detailed case study including a simulated site visit**. At the same time, you'll get to work through the auditing documentation as if in a real-life scenario against ISO 14001 and AS4801.

Included In The Course

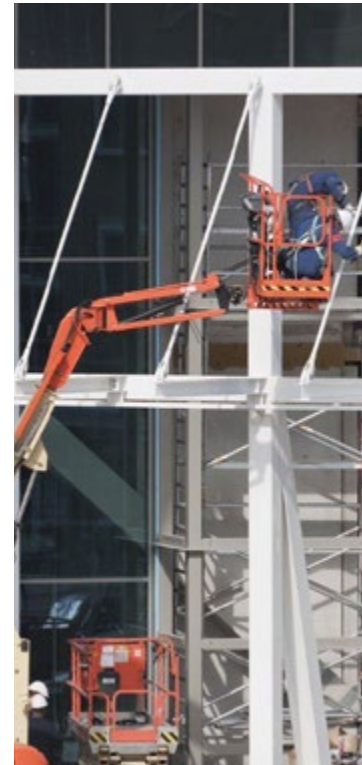

- Morning, afternoon tea and lunch, every day
- Course Manual:
EHS Internal Auditor Training.

EHS Audit Checklist

Site Inspections

Case study audits and feedback

Evaluation of findings

Presentation of results

Reporting the audit

Following up on audit findings

Course Approvals

S3G is an Exemplar Global (formerly RABQSA International) approved training provider. Successful completion of all assignments will lead to attainment of the following knowledge competency unit:

RABQSA-AU: Management systems auditing

There are however further requirements to register with Exemplar Global at OH&S and environmental auditor/lead auditor levels.

Exemplar Global has signed a bilateral agreement with The Institute of Environmental Management & Assessment (IEMA) that allows for mutual recognition of training course certifications. Successful completion of appropriate RABQSA competency units therefore also meets the training requirements to apply for recognition under IEMA's environmental auditor certification scheme.

Our trainers are not 'career' trainers.

Instead, our trainers are experts in the industry—called upon by internationally recognised clients, often at crisis time.

This means students of our courses benefit from real-life, in-field experience and knowledge, with much of the case studies used in training coming directly from the field.

The bottom-line advantage to clients means students acquire practical knowledge at the front of their industry trends.

We have trained over 12,000 students and represent over 200 blue-chip clients internationally.
